Backline Specification

1. Drumset Specification

The depths of the drum sizes are not important; Head Sizes are VERY IMPORTANT:

1. 20" by 16" Bassdrum with Tom Mount attachment
2. 12" by 9" Mounted Tom (mounted on bass drum tom mount)
3. 14" by 14" Freestanding floor tom with legs
4. 14" by 5" Professional snare drum with new heads and snare wires
5. One professional drum throne - must be able to adjust high and be in PERFECT working condition.
6. One Hi Hat stand with clutch
7. One Snare stand
8. One Bass Drum Pedal
9. Three cymbal stands with functional felts and rubber/plastic sleeves
10. HEADS Must be Remo (NEW) Coated Ambassadors for Snare and Toms
11. Bass drum must have Remo Coated Ambassador for Resonant Head (front) and Remo Powerstroke 3 for Batter Head (back).
12. On all venues, a DRUM CARPET must be provided. *Not a blanket, but a carpet large enough to accommodate the drum set.
13. All Hardware must be in good working condition.

2. Keyboard Specification

1. Roland RD-700GX Stage Piano with Sustain Pedal
2. Strong keyboard stand to hold the roland stage piano
3. One keyboard throne, must be able to adjust height and be in PERFECT working condition

3. Guitar and Bass Specification

1. Guitar combo amplifier with 12" speaker and min. 120W power
2. Bass combo amplifier with 15" speaker and min. 150W power
3. All amplifiers must have needed cables (power cord and audio cables) supplied.
